

SUSTAINABILITY KEY FIGURES 2023

Energy intensity
gigajoules/revenue (EUR million)
272,6

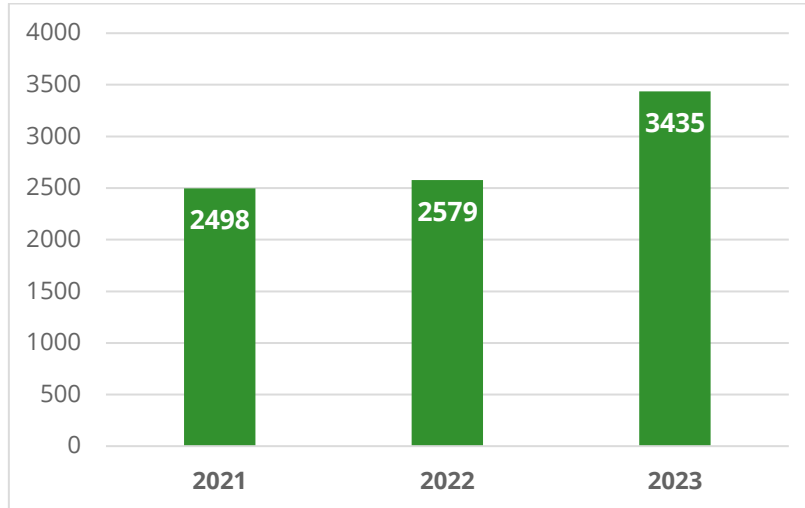

Own fuel consumption
4,8 million litres

Own electricity consumption

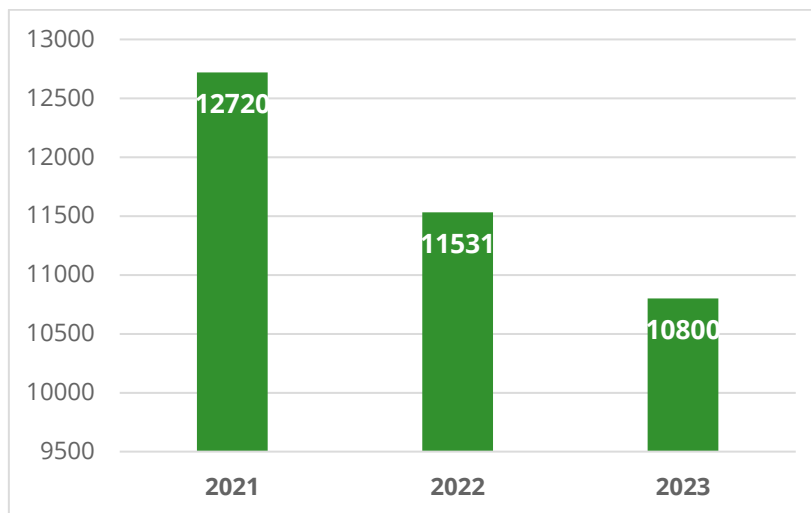

Renewable energy sources 100 %

3435 MWh

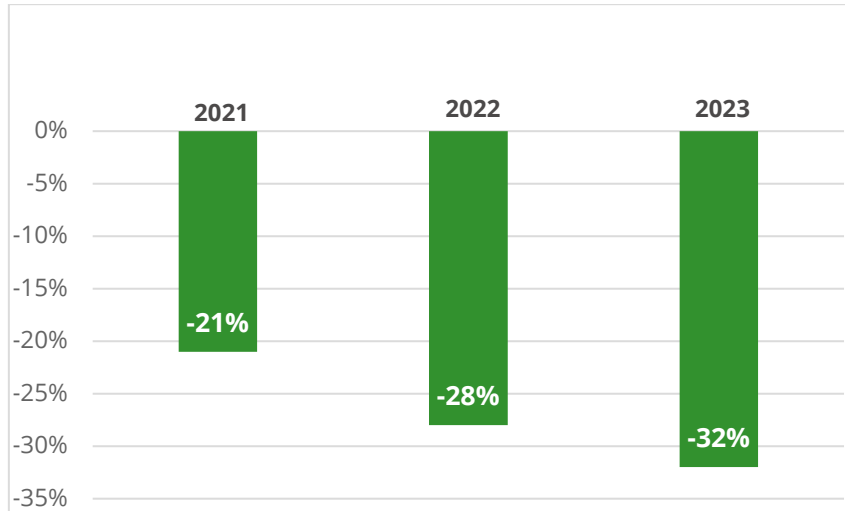

Direct greenhouse gas emissions from Destia's own energy consumption (SCOPE 1-2)

10 800 tonnes

Reduction in emissions SCOPE 1-2 (baseline 2020):

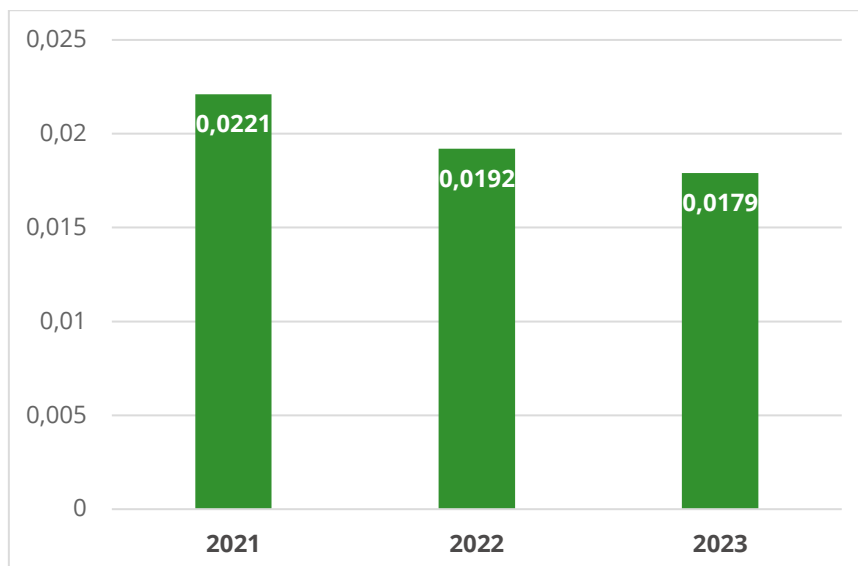

-32 %

CO₂ intensity

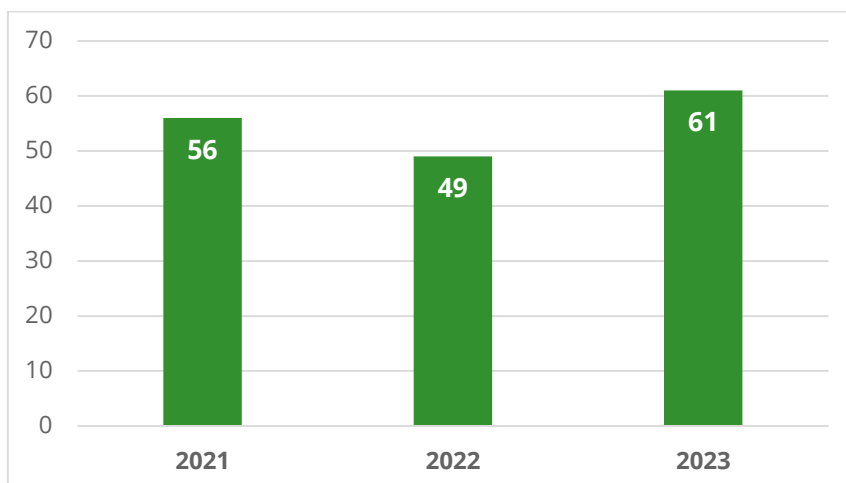

CO₂e tonnes/revenue (million EUR)

0,017898574

NPS

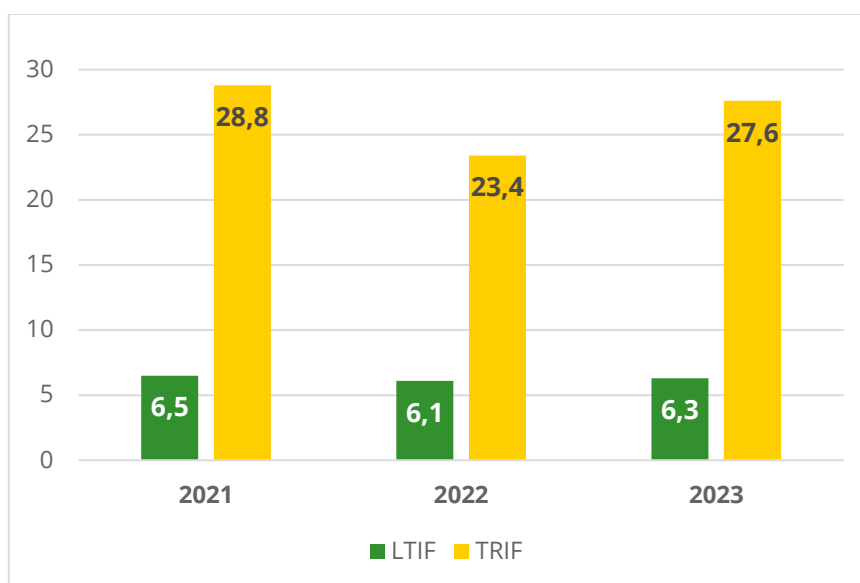

61

Accident frequency

(accidents/million working hours)

6,3

(LTIF = the number of lost-time accidents per million working hours)
(TRIF = the number of accidents per million working hours)

Severity rate

0,07
